TEN CENTS A WEEK

CITY IS HIT BY RAIN

Has Again Been Handicapped.

CONTINUES SMALL

Reported Than Any
of August—The
Surrounding Country
Improves.

Oct. 10.—Rain has
fallen in the past 24 hours, and
work has again had to
be suspended. The
improvement, a clean
Sunday emphasizing
the heretofore made in
the fact that there are fewer
yellow fever develop-
ments reported.

Statistics sustain Dr.
White's contention that the fever is be-
ing wiped out. For the week
a total of 176 new cases
were reported against
23 deaths in the
week, the showing being the
best week in August.
The affected points in the coun-
try are of steady progress.

Registers are beginning
to show, showing that people
are overcoming their fears
of the disease here. There
is a steady stream of people
coming from various parts of
the state to the hotels here. The
mountain points continue
to show continued improve-
ment. The next ten days there will
be a continuation of the
improvement of the country so far
as passenger traffic.

At the New Orleans the
showing on Sunday, giving day and
night performances. There was
not only a full house, but
there were no deaths and no dis-
ease reported by the emergency hos-
pitals preceding 24 hours. The
showing for two more people
here yesterday and went
to the hospital for treat-

ment. Mississippi continues a ri-
otous state in spite of the distri-
bution of the state an ef-
fective measure to open commu-
nication with the gulf coast under con-
sideration. The families of many New
Orleans men are still on the
edge of anxiety to have inter-
ference with the city. Dr. White con-
tinues to believe that the danger will be
in the form of travel between New
Orleans and Mississippi towns.

The state during the preceding
two days were reported, one
at Providence and the other at
Birmingham. The latter was reported
as having been from Phila-
delphia, where his family is reported
as being in good standing.

It is reported that two of its inmates
suffering from yellow fever, the
doctor's belief had to transfer
yesterday night to another
hospital. However, shows
no indication of not infected, the
two patients being man-
aged at the hospital at Willwood's
road, in Jefferson parish, just
outside the city, is now in operation.

MOSCOW UNDER MARTIAL LAW.

Disorders Break Out Afresh Among Russian Strikers.

St. Petersburg, Oct. 10.—General
Trepoff, assistant minister of the In-
terior, has been informed by telephone
from Moscow that no serious disorders
occurred there last night, and that the
situation was slightly more reassuring
this morning.

The strikers are active, however, and
the authorities are very apprehensive.
They are hopeful, however, that the
St. Petersburg workmen will not be af-
fected.

A serious development at Moscow to-
day was an attempt to interrupt rail-
road traffic. Three Cossack policemen
were tampered with a short distance from
Moscow, causing the derailment of a
train but there were no casualties.
The ministry of the interior admits
that three Cossack policemen were
killed yesterday but has no confirma-
tion of a dispatch from Moscow say-
ing that eight bakers were killed.

Order Is Restored.

Moscow, Oct. 10.—Order was re-
stored in the streets at 11 o'clock last
night. It is officially announced that
among the wounded are five Cossacks,
four gendarmes and a number of po-
licemen.

Bankers Are Under Arrest.

Denver, Colo., Oct. 9.—According to
information from Alamosa, Colo., the
Schiffers brothers, owners of the sus-
pended bank at Alamosa, one of whom
is under arrest and the other being
under a warrant, secured a large sum
of money through the sale of stock of
a cattle company they organized,
which stock is declared to be fraudu-
lent. The company was organized with
100,000 shares, 41,000 of which were
organized with William and Frank
Adams, brothers of ex-Governor Alva
Adams. The balance was purchased by
the Dunn estate of Del Norte. The
allegation is made that subsequently
the Schiffers duplicated the Dunn es-
tate stock and sold it to J. A. Thatcher,
president of the First National bank.
Frank Adams now asserts that his lat-
ter stock is worthless.

Alleged Swindler on Trial.

Philadelphia, Oct. 10.—Stanley Fran-
cis, alias Arthur S. Foster, alias Arthur
S. Foster-Francis, etc., was today
placed on trial before Judge Holland
in the United States district court
charged with having conspired to use
the mails to defraud in connection with
"get-rich-quick" enterprises. The spe-
cific charges, against Foster are that
he was the principal in the Storey Cot-
ton company, which is alleged to have
defrauded a large number of persons
throughout the country, and that he
was also connected with the Provident
Investment bureau. Indicted with Fran-
cis are Frank C. Marrin, alias Judge
Franklin Stone, Sophia Beck, F. E.
Storey, Walter S. Rizzo, T. H. Quin-
lan, Patrick Kearns and A. P. Howard,
who are alleged to have been connected
with the Storey Cotton company.

Will Banquet the President.

New York, Oct. 10.—A banquet in
honor of the president will be given
by the Roosevelt club on his forty-sev-
enth birthday, Oct. 27, in the room in
which he was born, at 28 West Twen-
tieth street. The president has been
invited to be present. The club is de-
termined to preserve the house in which
President Roosevelt was born and to
maintain it as a national landmark.
The club now numbers about 500 mem-
bers and applications are being received
daily from all parts of the country.
It was organized on Oct. 12, 1894, by
25 members of Mr. Roosevelt, and L. P.
Glavin is president.

Large Amount for Missions.

New York, Oct. 10.—People from all
over the United States and Canada
gathered at the New York mission soci-
ety for a session at the Grand Trian-
gle yesterday. At two services
\$2,500 was collected. The gifts of
missionaries were received by a general
committee and a women's society.

WANT OTHER STATES TO REMAIN SILENT

New York Officials Say They Can Handle Insurance Case.

REGRET ACTION OF MISSOURIAN

Chairman of Investigation Committee
of Empire State Believes that They
Will Be Able to Remedy All Troubles
of Companies.

Rochester, N. Y., Oct. 10.—Senator
Armstrong, chairman of the insurance
investigation committee, left for New
York last night on insurance matters.
The following statement was issued by
Mr. Armstrong:

"I regret very much to see other
states apply drastic measures in ad-
vance of any action in this state.
Our committee was appointed to inves-
tigate conditions in the insurance busi-
ness and propose remedial legislation.
I sincerely hope other states will wait
until we have had an opportunity to
complete our work.

"The insurance companies are per-
fectly solvent and are able to carry out
every contract they have made or may
make. There is no reason for refus-
ing to permit them to continue doing
business. If Nevada proposes to do
one thing, Missouri another thing and
some other state still another thing,
there will be a chaotic condition of af-
fairs. I believe there is due at least
the courtesy to New York state to wait
until the investigation is complete and
our remedial legislation applied.

"Our committee will have the most
thorough investigation possible and
when we are through we shall make
it our business to adopt such legisla-
tion as will safeguard the policyholders
and make the insurance business safe
and sound and more attractive than
it has ever been before. If other
states jump in before we can complete
our work, or can adopt any legisla-
tion, everything will be confusion in
the insurance business of the country.

"Another point:
"When a number of western insur-
ance commissioners were in New
York recently we had a conference
with them, and we promised to submit
to them for their suggestions what rem-
edial legislation it was proposed to
adopt. In this way we hope to secure
uniform action in all the states. It is
not right for other states to take ac-
tion after our committee has been at
work only four weeks and long before
we have reached the end of our inves-
tigation. Any action they might take
at this time would be premature.

"Our commission was not appointed
to tear down the insurance business
of the country but to build it up. We
are simply tearing down some of the
rotten timbers to get the right founda-
tion on which to build. We are trying
to do this work in a sane, thorough-
ly and conscientiously. It is not a
pleasant task at best, but we are not
dodging and shall not dodge any re-
sponsibility. The insurance body is
sound, but it is afflicted with some ul-
cers. We are performing a surgical
operation for the removal of ulcers
from this body, not trying to kill the
insurance body, because we have dis-
covered some rottenness. It is not right
for outside states to cripple the insur-
ance business and handicap our ef-
forts."

Doubts Commissioner's Power.

New York, Oct. 10.—William Fitch,
superintendent in this city of the Cen-
tral Union Life Insurance company,
of Cincinnati, expressed doubt yester-
day that insurance Superintendent
Vandiver, of Missouri, would be able to
make good the threat to cancel the li-
cense of the New York Life Insurance
company to do business in that state un-
less President John A. McCall re-
signed and the funds used for politi-
cal campaign contributions were re-
placed. For two successive terms Mr.
Fitch was insurance commissioner of
Missouri. He said:
"I don't see how the state of Mis-
souri can seriously revoke the license
of the New York Life Insurance com-
pany to do business in that state on
any such grounds as that mentioned

in the letter written by Superintendent
Vandiver to President McCall. No in-
surance commissioner has any such
right. He can go in and investigate
the affairs of a company doing busi-
ness in his state at any time circum-
stances seem to justify such proceed-
ure. He can examine the directors of
the company and its officials, and the
company must defray the expenses but
only if such examination should dis-
close gross mismanagement can he or-
der a reorganization or decide that the
property must do no further business
in his state."

TEN THOUSAND LIVES LOST.

News from China Tells of Terrible De- struction by Typhoon.

Victoria, British Columbia, Oct. 10.—
The steamer Tartar, which arrived here
from the Orient, brought the news
from Shanghai that the loss of life of
the natives of the island at the mouth
of the Yang-Tze river, as a result of a
typhoon at the beginning of Septem-
ber, was tremendous.

The North China Daily News, of
Shanghai, says:

"To the east of Tamagning, two is-
lands, one called Yaowahwa, the other
shihouasha, distant about 20 miles
from Woosung, have suffered much
from the typhoon, nearly all the inhabi-
tants having been swept away.

"The islands have only been inhab-
ited for a short time, as they are of
recent formation, and are not much
above high-water mark. It is reported
that nearly 10,000 people have been
drowned on these two islands and the
smaller islands adjacent. Tamagning
itself has not suffered much, being
well above the high-water mark."

No Clue to Murderer.

Middletown, N. Y., Oct. 10.—All at-
tempts of the county and local police
to clear up the mystery of the murder
of William and Fred Olney and little
Alice Ingerick, at the Olney farm near
here, and the murderous assault on
Mrs. Ingerick on Friday night, have so
far been fruitless. It was believed
this morning that some clue to the
murderer had been found when Alanson
Graham, and old man living near
the Olney place, was arrested on in-
formation furnished by Mrs. Ingerick,
the only member of the Olney family
who escaped death, but who was found
terribly injured and unconscious in
the barn. After being kept in custo-
dy all day, and closely examined, Gra-
ham tonight conclusively proved his
innocence and was discharged from
custody.

Texas Negro Escapes Mob.

Houston, Tex., Oct. 10.—Monk Gib-
son, the negro accused of the murder
of the O'Neil family, at Edna, has been
captured and safely landed in the Edna
jail. Large forces have been scouring
the country for a week or more in an
effort to apprehend the negro. Open
threats that he would be burned, caused
Governor Lanham to send troops to
Edna with orders to protect the suspect
from the fury of the populace. The
troops are still quartered at Edna and
Gibson will escape mob vengeance.
The negro was discovered sleeping in
an outhouse by Walter Wagon, a ne-
gro. Warren notified the sheriff, who,
with state troops, lodged the fugitive
in jail.

White Nursing Baby Is Injured.

Atlanta, Oct. 10.—In a heroic at-
tempt to save her baby boy, Mrs. Baby
Bays was run down and dragged
by a fast flying automobile on the
parking road. The machine was driv-
en by a young girl, 16 or 17 years of
age, according to eye-witnesses. Mrs.
Bays was seriously injured internally,
but the child, for whom she risked her
own life, escaped with only a few
bruises. The names of the parties in-
volved in the case could not be learned
last night, although it is understood
that one eye witness took down the
number of the car.

After 30 Years Necklace Is Found.

New York, Oct. 10.—Thirty years
ago while attempting a fashionable wed-
ding in Brooklyn Miss Jennie Corwin
lost a necklace of pearls valued at
\$1,100. Yesterday the family announced
that the necklace had been returned
by mail on Saturday. No attempt or
effort to identify the identity of the
finder accompanied the jewels.

COURT REFUSED TO ISSUE INJUNCTION

St. Louis Judge Turns Down Application of Ramsey.

FIGHT TO CONTROL RAILROAD

The Gould Interests Can Now Go
Ahead and Elect the Officials for
Their Roads—One of the Largest
Fights in Railway Annals.

St. Louis, Oct. 10.—In the St. Louis
circuit court today Judge Daniel U.
Taylor denied the application of Joseph
Ramsey, Jr., deposed president of the
Wabash railroad for an injunction to
restrain the Missouri Pacific and Iron
Mountain roads or their trustees from
voting Wabash stock held by or for
those railroads in the annual Wabash
election to be held in Toledo to-
morrow. Gould and his supporters and Joseph
Ramsey, and his personal advisers are
awaiting the decision. The failure of
the injunction suit, which, if success-
ful, would have tied up a large block
of Gould stock is regarded as a most
important victory for the Gould inter-
ests.

Judge Taylor's decision after giving
the names of the various stockholders
and the amount of their holdings in
the railroad and detailing the rela-
tions between the companies interest-
ed, says in part:

"The record develops the fact that
at the last annual election of the Wa-
bash Railroad company the plaintiff,
Mr. Ramsey, holding the proxies of
he then and now owners of those very
shares of stock, the voting of which he
now seeks to have enjoined, voted all
of them for the election of the very
persons whom he now charges will,
if elected, so conduct the property of
the Wabash road as to not only vio-
late the provisions of the laws of Mis-
souri, but will also so conduct the same
as to injure him. I am of the view
that this action of plaintiff is sufficient
to compel the court to deny him the
relief which he seeks in his absence of
proof showing that something has
transpired since the time of such vot-
ing of this stock by him which would
indicate that the purpose of those
who will be elected by the voting of
this stock at the meeting to be held on
the tenth of October, will be different
from those of the persons elected by
the plaintiff.

"The order will, therefore, be that
the rule heretofore made on the de-
fendants to show cause why a prelimi-
nary injunction should not be issued,
will be vacated and plaintiff's applica-
tions for a temporary injunction de-
nied. (Signed) Daniel U. Taylor."

Rescued a Strange Visitor.

Montgomery, Ala., Oct. 10.—George
Stowers, a resident of this city, was
sitting in his home last night when he
heard a noise in the hall. He went
to look and saw nothing. Later he heard
what he took to be some one walking.
He took a small lamp and went to
search further, light in one hand and a
pistol in the other. As he came near
the parlor door he heard the distur-
bance again, as if of some one moving
around the room. He raised the light
and looked in and beheld there a
young cow, which had calmly walked
into the house by way of the back door
and was browsing around.

Pat Crows Enroute to Omaha.

Ogden, Utah, Oct. 10.—Pat Crows,
here last night on his way to Omaha
he was handcuffed to a detective and
accompanied by two Omaha newspaper
men. Crows has warned his captors
that they would better "look out" for
him. He is well supplied with money
which the police failed to find when
they searched him.

Japs Will Honor Harrison.

Tokio, Oct. 9.—(3 p. m.)—Consul In-
oue of his residence will give a party
tomorrow, Oct. 10, in honor of Mr. H.
K. Harrison, president of the South-
ern Pacific railway. The guests will
include the leading society people and
business men of the city.

THE CITY BONDING QUESTION CARRIED

The People Have Spoken in No Uncertain Voice.

A MAJORITY OF SEVEN TO ONE

The Movement in Favor of Municipal Bonds Carried by An Overwhelming Vote—Several Votes Lost Because They Were Not Properly Marked.

The election to decide whether the city of Gainesville would issue \$115,000 worth of municipal bonds for the purpose of owning its own electric lighting plant, constructing a system of sewers and other public improvements, was held yesterday, and the vote was carried about seven to one in favor of issuing of the bonds, the vote standing 228 for to 27 against, with 17 votes marked wrong, which did not count at all.

The result has plainly shown that the people still manifest very favorably the "Gainesville spirit," which shows to the people that there is a determination on the part of our citizens to swim, instead of sinking into oblivion. It shows plainly that we have the people in our midst who have faith in the future of our city and realize that we must be up and doing.

The vote, or majority, was much larger than many had anticipated, and as there were a number of legal voters who were not at the polls, who refused to vote because they were not owners of real estate, but who favored the bond issue, would have brought the majority still larger.

The result, however, will give new life to the city, give the outside world to understand that Gainesville is progressive, and cause more activity in all branches of enterprise. The citizens who have been foremost in the movement are deserving of credit for their zeal, and with the improvements to be pushed to completion the city of Gainesville will forge ahead at a more substantial rate than ever before.

No city can make a substantial advance without these improvements, and there will be nothing in the way now to hold back the progress that the location and surroundings of Gainesville will warrant it in making.

Hurray for the "Gainesville spirit," as it is for advancement, and the people are deserving of much credit for their excellent judgment manifested at the polls yesterday, and October 10th, 1905, will mark the dawn of the era of modern progress in Gainesville.

BROWN DAY.

It Will be An Event at the State Fair in Tampa.

The Fair commissioners from the various counties to be represented at the coming State Fair, at a recent meeting in Tampa some time ago, were given all the necessary information regarding different features of the exhibit departments, etc. After the regular meeting the commissioners went into executive session and passed resolutions requesting the directors of the Fair Association to designate Thursday, November 30, as Brown Day, in honor of Col. T. J. L. Brown, inaugurator of the fair movement and president of the association. The commissioners also requested the privilege of inviting Governor Broward and a representative from each county to be present, and to arrange a special program in honor of the day.

SOUTH MUST RAISE COTTON.

World's Supply of Staple Will Always Come from Dixie.

Medford, Miss., Oct. 10.—Once more the causes of the failure of the culture of cotton successfully in Africa has been explained, with, perhaps, more detail and more explanation than ever before. This explanation, too, is made by a cotton expert in Rhodesia, South Africa, and Portuguese East Africa.

In South Africa, the labor, although very cheap, is unreliable and unsuccessful when employed in the cotton fields; transportation poor and ineffective, and the machinery, although of American make, out of date and unequal to the task imposed upon it. In Egypt, however, the labor is better, but the machinery is very poor, and the restricted area excludes that country as a possible dangerous competitor with the southern planter.

All of this is summarized from the comments of J. L. Stinson, a Mississippian, who has just returned from Africa, where he has been conducting a series of experiments for the British application.

NO SUBSTITUTE

has yet been found for cod liver oil. There are so-called extracts, wines and cordials of cod liver oil that are said to contain the active principles but not the oil itself. This is absurd on its face. You might as well extract the active principles of wheat and make bread with them. The best form of cod liver oil, that can be digested and assimilated most easily, is Scott's Emulsion.

SCHOOLS OF
ALACHUA COUNTY

University High School of
Gainesville is Flourishing.

PUPILS ENROLLED

Added Every Day—One
and Thirty in the High
School—More Room and Another
Teacher Wanted.

University High School of this
city is making rapid strides and it is
expected that this winter
before. Under the ruling of
the new bill law there has been a
great increase in the high school,
at present time there are 120
pupils in the higher grades, with a
much larger number be-
cause of the term. According
to the hands of Superin-
tendent Kelley there were 400 pupils
last year, while at the
present time there are 450 enrolled,
and they bring more.

Condition of the several rooms
shows one that there is need of
more in order to overcome the
condition of the various de-
partments. It would seem as though
more room could be made smaller
rooms thus gained be used to
increase in making sittings for
pupils. If the pupils continue
to increase each year as they have in
the two years, a new school house
is the next thing to be supplied.
The need of one more teacher
in the schools, who would enable
the instructors to carry on the
work satisfactorily and wish ad-
dition to the pupils. With this one
to the schools there is no de-
ficiency in the State.

In the County.

All the schools in the county
are working nicely, except pos-
sibly eight that were open dur-
ing the summer, which have not yet
started. Two have no teachers at
present but it is expected they can be
supplied.

Superintendent Kelley is de-
voting his careful attention to the
system of the city and county,
and is every reason to believe
that he is meeting with the most suc-
cess in his efforts. He is
devoting much valuable time to
his work.

MELROSE MELANGE.

Of an Old Resident—Lee Good-
appointed Deputy Sheriff.

October 10.—John A. Good-
long resident of Melrose, af-
ter a long illness, died on Friday
morning, leaving a widow and eight
children to mourn his death. No-
twithstanding the showery weather,
a large gathering of friends was
present at the funeral on Saturday af-
ternoon. Rev. T. J. Statron officiating.
The recent wet and dry election
in the county the Melrose precinct
went dry to 1 wet.

W. H. Corpew and son have re-
turned to Miami.

Johnson has accepted the posi-
tion of deputy sheriff for Putnam coun-
ty and will move his family to Palatka
next week.

Those recently returned
from the North are Mr. and Mrs. O. D.
E. Price and Col. Yearwood.
The regular monthly council
meeting only routine business was
transacted. The attention of the citi-
zens is called to the mayor's proclama-
tion regarding the cleaning up of
the streets.

Mr. and family have rented the
house in East Melrose.

Attention for Policy Holders.

Oct. 10.—A dispatch to the
Herald from Jefferson City,
Mo., that Governor Folk last night
received a telegram from Thomas W.
Baker asking him to accept a place
as governor on a protective
basis for the policy holders, to
prevent the loss of money by the
New York Life and Equitable
companies, and to "punish" guilty offi-
cials. The governor is very busy
and probably will not be able to accept
the position.

GRAVE DISEASES, DUE TO STANDING

Facte About Miss Merkley's Dangerous
Illness and Complete Cure

Have you ever thought why so many
women or girls rather walk an hour
than stand still for ten minutes?

Miss Margaret Merkley

It is because most women suffer from
some derangement of their delicate
organism, the discomfort of which is
less trying when they are in motion
than when standing.

In some states laws compel employers
to provide resting places for their
female employees.

But no amount of law can regulate
the hard tasks of these women. They
must get the strength which this work
demands or run the risk of serious
diseases and the surgeon's knife.

Read about the experience of Miss
Margaret Merkley, 375 3d Street, Mil-
waukee, Wis.:

Dear Mrs. Pinkham—
"Gradual loss of strength, nervous-
ness, bearing-down pains and extreme irritation
compelled me to seek medical advice. The
doctor said I had ovarian trouble and ulcer-
ation of the womb, and advised an operation
if I wanted to get well. I objected to this
and decided to give Lydia E. Pinkham's Vege-
table Compound a trial. I soon found that
all the good things said about this great
medicine were true. The ulceration soon
healed, backache, headache and nervousness
disappeared, and in a short time I was
strong, vigorous and perfectly well. I wish
every working girl who suffers would try
Lydia E. Pinkham's Vegetable Compound."

Lydia E. Pinkham's Vegetable Com-
pound is a vegetable tonic which invig-
orates and strengthens the entire fe-
male organism, and will produce the
same beneficial results in the case of
any sick woman as with Miss Merkley.

SANTA FE NEWS.

Big Land Deals—Worthington Springs
to Make Great Resort.

Santa Fe, Oct. 10.—There have been
several important transactions of real
estate in this community in the last
ten days. The Irvin Holder farm and
lands consisting of nine hundred acres
in one body—one of the finest tim-
bered tracts of land in the county—was
purchased last week by J. J. Coppage,
representing the W. P. Smith—Ashley
—Coppage Co. of Valdosta, Ga., for
\$6,500 cash. The tract has two hun-
dred acres in cultivation, with substan-
tial buildings. This company has. It
is rumored, bought a controlling in-
terest in the Worthington Springs
property and expect in the near fu-
ture to erect a large hotel and other-
wise improve the property, so as to
make it one of the best and most at-
tractive health resorts in the State.
They are also going into the manu-
facture of turpentine. It is supposed
that they will run one turpentine plant
at Santa Fe and one near the springs
on the Bradford side, as they have
leased and purchased large bodies of
land in both counties, and are nego-
tiating for other bodies of land lying
adjacent to the ones that have been
secured. There are other deals in real
estate being made that we will speak
of later.

Major Tenth and Photographer
Smith visited our burg last week in
the interest of the county's exhibit for
the State Fair at Tampa. They pro-
cured some fine views, which will be
on exhibition at the Fair. The people
seem to be interested in the matter of
Alachua county as the Fair.

The farmers are having a hard time
gathering their four-cent cotton here,
owing to the scarcity of pickers and
the wet weather. Some are paying
\$1.25 per hundred and cannot get pick-
ers at that price.

Two Killed; Two Injured.

Hopkinsville, Ky., Oct. 10.—In a
head-on collision between fast freight
trains on the Louisville and Nashville
line here this morning Engineer Jos.
Hamby and Fireman L. G. Davis were
killed and Engineer William Wood and
Fireman John Burke and J. W. Smith
were injured. All lived in Nashville,
Tenn.

MICANOPY MENTION.

Local Happenings and Numerous Per-
sonal Items of Interest.

Micanopy, October 9.—Prof. Oliphant
and family spent a week with Rev. E.
A. Gray on their way to Winter Park.
Prof. Oliphant has a position in Rol-
ins College.

W. H. Sanders has returned home
after spending several weeks at St. Pe-
tersburg.

Dr. Schlater and J. B. Simonton
have been investing in some Kentucky
thoroughbreds. They have some nice
saddle and driving horses.

Ed. Rives is building another store-
room on his lot on Seminary street.

Mrs. Grover has returned home after
spending the summer in Baltimore and
Washington.

P. M. Olson of Gainesville nomad-
ly, of the State of Florida generally,
spent a couple of days in town visiting
his daughter, Mrs. W. A. McGriff.

Capt. J. J. Barr and wife and Mrs.
J. D. Watkins and children returned
home Friday after being away in Ten-
nessee, North Carolina, Washington
and several places in South Carolina
for over two months. They report a
nice visit, but like all Floridians, are
glad to get back home.

The Micanopy high school opened
last week. Miss Collins of Georgia
is principal, Miss Smith of North Caro-
lina is first assistant and Miss Merry
of Micanopy is second assistant. They
have eleven grades now and a proba-
bility of the twelfth grade being start-
ed soon, which will necessitate the em-
ploying of another teacher. They have
been busy this week getting everything
arranged.

Miss Ethel Watkins has returned to
her school at Swannee after spending
a couple of weeks here visiting friends
and relatives.

The farmers are very busy sowing
seeds, setting out lettuce, cutting hay,
hauling in corn and getting their lands
ready for fall and spring crops. There
has been so much rain that it has been
hard to save hay, but they have learned
to save hay while the sun shines and
quite a lot has been saved this week.
No set of men on earth are as hopeful
as the Florida farmers.

C. E. Melton is building a fifty thou-
sand feet per day capacity saw mill at
this place and hopes to have it in op-
eration by November 1st. This, with
Frater's and Sherhouse's, gives Mican-
opy three saw mills.

Play for World's Championship.

New York, Oct. 10.—New York's
champion Glens and their horde of loy-
al followers, left for Philadelphia to-
day for the first game in the series for
the world's championship. The Glens
are slight favorites for the series and
in the best of shape for a hard strug-
gle. It is extremely likely that "Chris-
ty" Matthews will be sent in the
box to handle the first contest, which
the Glens are determined to win. Few
he were recorded yesterday, mostly
small. These were in some cases at
even money on the first game and five
to four on the Glens on the series.

Reception Given Miss Roosevelt.

Tokio, Oct. 9.—(N.Y.H.)—Miss Allen
Roosevelt was given an enthusiastic
reception at Nikko. Nearly all of the
prominent families were represented
at the station to receive her. During
the journey she received greetings of
welcome at the principal stations. At
Utsunomiya she was met by the gov-
ernor and delegates from the Indian
patriotic league, who presented flowers.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Per-
son's Temperament.

Many people believe that blonde, or
light hair denotes affection and kind
hair composure. A person without hair
is not devoid of character, far from it.
The disposition of the average bald-
headed man is to show much solicitude
for the welfare of others, that he sug-
gests himself. A good natured fellow.
Prof. Hagerman, of Paris, France, in-
vestigated a cabinet with thousands of
cases, and he found that bald men
were more likely to be kind than those
with hair. It is necessary to apply
Hagerman's Remedy.

THE CITY BONDING QUESTION CARRIED

The People Have Spoken in No Uncertain Voice.

A MAJORITY OF SEVEN TO ONE

The Movement in Favor of Municipal Bonds Carried by An Overwhelming Vote—Several Votes Lost Because They Were Not Properly Marked.

The election to decide whether the city of Gainesville would issue \$115,000 worth of municipal bonds for the purpose of owning its own electric lighting plant, constructing a system of sewers and other public improvements, was held yesterday, and the vote was carried about seven to one in favor of issuing of the bonds, the vote standing 228 for to 27 against, with 17 votes marked wrong, which did not count at all.

The result has plainly shown that the people still manifest very favorably the "Gainesville spirit," which shows to the people that there is a determination on the part of our citizens to swim, instead of sinking into oblivion. It shows plainly that we have the people in our midst who have faith in the future of our city and realize that we must be up and doing.

The vote, or majority, was much larger than many had anticipated, and as there were a number of legal voters who were not at the polls, who refused to vote because they were not owners of real estate, but who favored the bond issue, would have brought the majority still larger.

The result, however, will give new life to the city, give the outside world to understand that Gainesville is progressive, and cause more activity in all branches of enterprise. The citizens who have been foremost in the movement are deserving of credit for their part, and with the improvements to be pushed to completion the city of Gainesville will forge ahead at a more substantial rate than ever before.

No city can make a substantial advance without these improvements, and there will be nothing in the way now to hold back the progress that the location and surroundings of Gainesville will warrant it in making.

Hurray for the "Gainesville spirit," as it is for advancement, and the people are deserving of much credit for their excellent judgment manifested at the polls yesterday, and October 10th, 1905, will mark the dawn of the era of modern progress in Gainesville.

BROWN DAY.

It Will Be An Event at the State Fair in Tampa.

The Fair commissioners from the various counties to be represented at the coming State Fair, at a recent meeting in Tampa some time ago, were given all the necessary information regarding different features of the exhibit departments, etc. After the regular meeting the commissioners went into executive session and passed resolutions requesting the directors of the Fair Association to designate Thursday, November 20, as Brown Day, in honor of Col. T. J. L. Brown, inaugurator of the fair movement and president of the association. The commissioners also requested the privilege of inviting Governor Broward and a representative from each county to be present, and to arrange a special program in honor of the day.

SOUTH MUST RAISE COTTON.

World's Supply of Staple Will Always Come from Dixie.

Medford, Miss., Oct. 10.—Once more the causes of the failure of the culture of cotton successfully in Africa has been explained, with, perhaps, more detail and more explanation than ever before. This explanation, too, is made by a cotton expert in Rhodesia, South Africa, and Portuguese East Africa.

In South Africa, the labor, although very cheap, is unreliable and unsuccessful when employed in the cotton fields; transportation poor and ineffective, and the machinery, although of American make, out of date and unequal to the task imposed upon it. In Egypt, however, the labor is better, but the machinery is very poor, and the restricted area excludes that country as a possible dangerous competitor with the southern planter.

All of this is summarized from the comments of J. L. Stinson, a Mississippian, who has just returned from Africa, where he has been conducting a series of experiments for the British syndicate.

NO SUBSTITUTE

has yet been found for cod liver oil. There are so-called extracts, wines and cordials of cod liver oil that are said to contain the active principles but not the oil itself. This is absurd on its face. You might as well extract the active principles of wheat and make bread with them. The best form of cod liver oil, that can be digested and assimilated most easily, is Scott's Emulsion.

We'll send you a sample free.

city is making rapid strides and it is
will be better this winter
before. Under the ruling of
the bill law there has been a
enrolled in the high school,
present time there are 120
in the higher grades, with a
of a much larger number be-
cause of the term. According
to the hands of Superin-

Saleswomen's Peril

GRAVE DISEASES, DUE TO STANDING

Facts About Miss Merkley's Dangerous
Illness and Complete CureHave you ever thought why so many
women or girls rather walk an hour
than stand still for ten minutes?It is because most women suffer from
some derangement of their delicate
organism, the discomfort of which is
less trying when they are in motion
than when standing.In some states laws compel employers
to provide resting places for their fe-
male employees.But no amount of law can regulate
the hard tasks of these women. They
must get the strength which this work
demands or run the risk of serious
diseases and the surgeon's knife.Read about the experience of Miss
Margaret Merkley, 275 3d Street, Mil-
waukee, Wis.Dear Mrs. Pinkham:—
"Gradual loss of strength, nervousness,
bearing-down pains and extreme irritation
compelled me to seek medical advice. The
doctor said I had ovarian trouble and ulcer-
ation of the womb, and advised an operation.
If I wanted to get well, I objected to this
and decided to give Lydia E. Pinkham's Vege-
table Compound a trial. I soon found that
all the good things said about this great
medicine were true. The ulceration soon
healed, backache, headache and nervousness
disappeared, and in a short time I was
strong, vigorous and perfectly well. I wish
every working girl who suffers would try
Lydia E. Pinkham's Vegetable Compound."Lydia E. Pinkham's Vegetable Com-
pound is a vegetable tonic which invig-
orates and strengthens the entire fe-
male organism, and will produce the
same beneficial results in the case of
any sick woman as with Miss Merkley.

SANTA FE NEWS.

Big Land Deals—Worthington Springs
to Make Great Resort.Santa Fe, Oct. 10.—There have been
several important transactions of real
estate in this community in the last
ten days. The Irvin Holder farm and
lands consisting of nine hundred acres
in one body—one of the finest tim-
bered tracts of land in the county—was
purchased last week by J. J. Coppage,
representing the W. P. Smith-Ashley
—Coppage Co. of Valdosta, Ga., for
\$8,500 cash. The tract has two hun-
dred acres in cultivation, with substan-
tial buildings. This company has, it
is rumored, bought a controlling in-
terest in the Worthington Springs
property and expect in the near fu-
ture to erect a large hotel and other-
wise improve the property, so as to
make it one of the best and most at-
tractive health resorts in the State.
They are also going into the manufac-
ture of turpentine. It is supposed
that they will run one turpentine plant
at Santa Fe and one near the springs
on the Bradford side, as they have
leased and purchased large bodies of
land in both counties, and are nego-
tiating for other bodies of land lying
adjacent to the ones that have been
secured. There are other deals in real
estate being made that we will speak
of later.Major Tenth and Photographer
Smith visited our burg last week in
the interest of the county's exhibit for
the State Fair at Tampa. They pro-
cured some fine views, which will be
on exhibition at the Fair. The people
seem to be interested in the matter of
Alachua county at the Fair.The farmers are having a hard time
gathering their four-cent cotton here,
owing to the scarcity of pickers and
the wet weather. Some are paying
\$1.25 per hundred and cannot get pick-
ers at that price.Two Killed; Two Injured.

ly, of the State of Florida generally,
spent a couple of days in town visiting
his daughter, Mrs. W. A. McGriff.Capt. J. J. Barr and wife and Mrs.
J. D. Watkins and children returned
home Friday after being away in Ten-
nessee, North Carolina, Washington
and several places in South Carolina
for over two months. They report a
nice visit, but like all Floridians, are
glad to get back home.The Michanopy high school opened
last week. Miss Collins of Georgia
is principal, Miss Smith of North Caro-
lina is first assistant and Miss Merry
of Michanopy is second assistant. They
have eleven grades now and a proba-
bility of the twelfth grade being start-
ed soon, which will necessitate the em-
ploying of another teacher. They have
been busy this week getting everything
arranged.Miss Ethel Watkins has returned to
her school at Suwannee after spending
a couple of weeks here visiting friends
and relatives.The farmers are very busy sowing
seeds, setting out lettuce, cutting hay,
hauling in corn and getting their lands
ready for fall and spring crops. There
has been so much rain that it has been
hard to save hay, but they have learned
to save hay while the sun shines and
quite a lot has been saved this week.
No set of men on earth are as hopeful
as the Florida farmers.C. E. Melton is building a fifty thou-
sand feet per day capacity saw mill at
this place and hopes to have it in op-
eration by November 1st. This, with
Prater's and Sherhouse's, gives Michanopy
three saw mills.

In the line of sports Philadelphia is as fast as the lively city of Chicago.

And now some people are afraid that the "Olausson" will cause a bad feeling. Nonsense.

May be Mr. Bryan may accept the position of King of Sweden, if he happens around that way, to fill vacancy.

President Roosevelt has sent a sewing machine to the Empress of China with the injunction, "As ye sew, so shall ye live."

It is said that John D. Rockefeller wears a wig so that Pat O'Connell won't recognize him and kidnap him, to hold him for a ransom.

The Oar is trying to borrow seventy-five millions, but he is having some trouble to find the fellow who has that amount in his jeans to let him have.

Whoever first called Philadelphia the city of brotherly love, didn't know about the cruel things it would do to Chicago's baseball players later in its history.

Dr. Parkhurst says he finds the conditions of New York much improved on his return. The moral sentiment no doubt is better since the abandonment of his saloon.

There should be a law passed to prevent any man from drawing a larger salary than the President, or we will have a hard time to get a man to accept the nomination.

With the world's markets open to the South, and cotton mills to turn out the goods, we would have no difficulty in competing with the Northern cotton goods manufacturers.

Not all of the people in the North have visited in the South, but those who have been here any length of time and seen for themselves are pleased with the people and the country.

Greene and Gaynor express great satisfaction at being released from bondage in Canada. They know they will have the best the land affords, if they only keep them in jail in the United States.

Lester Renfro, colored, must have thought the judge at Beaumont, Texas, was lavish with time when he gave him 99 years in the penitentiary. Renfro cut a young lady's throat with murderous intent.

The peacemaker Dan Patch went a mile at Lexington, Saturday, in 1:55 1/2, lowering his own record. This remarkable speed has turned attention to the harness horse again, and the automobile will never drive him from the field of sport.

We may expect tidal waves and other disturbances if Mr. Lawson is deprived of giving his testimony before the insurance investigation commission at New York. It is a privilege due to Boston, out of respect to her noted citizen, who is charged for such occasions.

PUBLIC IMPROVEMENTS.

The old saying that "Anything that is worth doing is worth doing well," applies particularly to the work done about the city, and it seems a waste of time to half do the street work, or, as it is known, make temporary repairs. Every year there is quite a sum of money paid out for these temporary repairs and the storms of rain come along each year and soon have undone what has been done and the streets are as bad as ever. The cost of doing the work properly may be greater on the start, but if the work is made permanent it will be cheaper in the end.

There should be more attention paid to making the sidewalks better, and under the new charter, it is incumbent upon property owners to keep them in repair. The street committee should see that this work is properly done and in accordance with the requirements of the law. Good sidewalks add more to the convenience of a city than anything else, as they are used more than the roadways in the streets, and a system of substantial walks should be established on all streets.

The bridges across the Sweetwater branch are being repaired each year at a considerable outlay, whereas if a good substantial bridge was built where it is needed, it would last for ages. They should be constructed so as to afford space for the water to pass off without damage to their abutments, and made in a substantial manner, and then there would be no further annoyance along this line.

What improvements that are done should be well done, and in the end there would be a saving of the city's funds.

TOO MUCH ALCOHOL.

The Dublin (Ga.) Times says that an order has been issued to dispensary constables of the State of South Carolina which under the ruling of the United States Internal Revenue Department puts a ban on certain patent medicines sold heretofore in drug stores. The order to the constables names the medicines which are to be sold on prescription only, and a further order has been issued in the shape of a notice to the druggists, giving them until December 1 to close out stocks of certain medicines now carried in stock.

The legislative investigating committee has brought out the statement that certain proprietary medicines are sold in dispensaries—and also in drug stores.

There need be no fear of the sale of the Florida orange being injured by crowding green fruit on the market. The green fruit may not pay the shipper a big revenue, but the Florida orange will not suffer any. The only trouble is, they cannot get enough Florida oranges in the North. Whenever they once get a foothold, they are sure to be in demand. The California fruit is not to be compared with the Florida fruit, and the people are becoming aware of that fact.

The strike fever seems to prevail all over the country, the result of too much prosperity. The job printers of the country are the ones interested, as it was understood the newspapers were not to be in the demand for the eight-hour day. It would be a hard matter for them to do the work and have the time laid down exactly, especially when a man has to go when anything happens.

"Monk" Gibson, the negro fiend of Texas, who has been captured, is liable to make a heap of trouble. He has been placed in jail and is guarded by two companies of State troops, and the citizens and troops are liable to come together over the matter.

The Apalachicola Times wants some one to start a wholesale grocery in that town.

NOT A GAMBLE.

One of the most frequent expressions heard from those who are not well informed on the subject is, "Farming in Florida is all a gamble, anyway," says The Lakeland News.

The meaning of this phrase is that farming in Florida is attended with larger risks and that the percentage of failure among people engaged in this avocation is greater in this State than elsewhere.

This conclusion is unfair and unwarranted by the facts. It is believed by the experience of thousands who, starting with practically no capital, have acquired a competence—in some instances affluence—as the result of their labor on Florida soil.

In Florida crops planted and cultivated with ordinary care and intelligence are as certain and as profitable as in any section of the United States. In this part of the State a greater diversity of products may be raised than in almost any part of the country, and something may be kept growing all the time. The South Florida farmer does not have to contend with the eggs-in-one-basket conditions of the northern wheat, cotton or corn growers. If he fails with one crop, he has not lost the entire year, as is the case further north; he has still ample time to raise perhaps two more crops while his Northern brother is mourning adverse fate and waiting the recurrence of the proper season so that he may go to work again.

Wherever man sows, he must accept the risks consequent upon adverse elements. He must contend with extremes of cold and heat, with flood and drought, with blight and insect pest. These things are not confined to Florida—in fact, some of them, at least, are less hurtful in this State than elsewhere. If therefore, it is a "gamble" to farm in Florida, how much more truly may the statement be made of other sections where a whole year must be staked on a single crop, instead of three or four months, as is the case in this State.

We repeat that farming in Florida is as safe a pursuit, as sure of results, and more remunerative in returns than many of the most vaunted agricultural sections of the country, and the proof is furnished by a comparison of the condition of the Florida farmer with that of his brother in other States.

The Lakeland News says that since the announcement of his determination to remain at the head of the State Fair, T. J. L. Brown appears to be the most popular man in Florida, and he is getting bouquets flung at him from all sides.

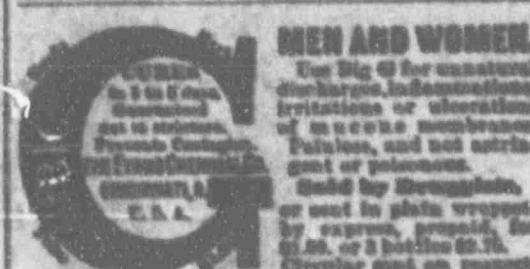

The three ors of the DeFauk Fair are of opinion that the present quarantine restrictions will be removed by the time the fair is to take place and they will go ahead with the exhibition.

Sour Stomach

"I used Calcarets and feel like a new man. I have been a sufferer from indigestion, flatulence, and sour stomach for the last two years. I have been taking medicine and other drugs, but could find no relief only for a short time. I will recommend Calcarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to take." Harry Buckley, Hunch Creek, Pa.

Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store, and after taking three bottles I am so much better, and continued to take until I was entirely well." LYNCHED BY HIS OWN RACE.

Negro Assailant Is Hanged for Crime by Negroes.

Bainbridge, Ga., Oct. 10.—Tom Seabright, a negro, who Sunday raped two negro girls, committing the second assault while the officers were chasing him for the first offense, was taken from the officers of the law, who had him in their possession, and lynched last night by a mob composed of members of his own race.

Seabright was an ex-convict, who was recently liberated from Greer's camp, near Cyrene, in Decatur county, and was captured by Officers Ivey and Murkerson. The lynching occurred on the plantation of James Ivey, about 8 miles west of Bainbridge.

After the negro had been hanged to a tree his body was riddled with bullets and what was left of it was left hanging to the rope. The bloody carcass was cut down today by the coroner.

The first assault greatly enraged negroes who learned of it, and when a second offense was committed their fury knew no bounds.

When the two officers came in sight of the place where the blacks had congregated, the latter, heavily armed, approached, and stating that they meant no disrespect to the officers, demanded the prisoner. As there were about 50 of the lynchers in the party, the officers were powerless to prevent the execution of vengeance without the law's aid, although they pleaded with the negroes to permit them to land Seabright in jail, assuring them that the would get full punishment in the courts.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty-cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Wealthy Man Suicides.

Charleston, S. C., Oct. 10.—Lee Loeb, one of the wealthiest men in Charleston, a retired merchant and owner of over 200 pieces of real estate, dressed for breakfast Sunday, and then telling his wife that he would "be down in a minute," stepped into a bath room and sent a pistol bullet into his brain. Nervous prostration had caused his retirement from business some time ago, and he had returned from a sanitarium during the past week. He was the largest owner of real estate in Charleston, and was 58 years of age. He leaves a widow. The jury of inquest gave "melancholia" as the excuse of the deed.

Eleven Bandits Are Shot.

Guadalupe, Mex., Oct. 10.—Eleven of the bandits engaged in the hold-up of Manuel Parades, shipping foreman of the Buena Vista mines, and his two assistants, 6 miles west of Hostotipaquillo, Jalisco, have been captured and shot by the rurales. It has been learned that fifteen men participated in the hold-up. The search for the other four bandits is still in progress. The bandits killed Parades and one assistant, wounded the other assistant and secured \$5,000 which was being taken out to the Buena Vista mines, to pay the miners. The greater part of the money was recovered.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. J. B. Hunt of Lima Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shore of despondency, when I began to take Ely's Kidney Pills for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and was now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

TRAGEDY AT MOTHER'S BIER.

Difficulty Between Members of Family Over Dead Body of Parent.

Hastings, Neb., Oct. 10.—Over the dead body of his mother, John Budenick shot himself, his sister, his brother and brother-in-law. The latter two are in a dying condition. The shooting was the culmination of a family quarrel that had existed for years.

Mrs. Budenick was staying at the home of her daughter, Mrs. Peter Smeal, and because of the family trouble her son, John, was not permitted to see her during her illness.

When John heard of his mother's death, last night, he entered the house shortly after midnight and found the entire family surrounding the corpse, watching the undertaker prepare the remains. Advancing to the corpse John placed his hands on the lifeless body and said: "This is my mother." His sister, Frances, said something in Polish, whereupon he struck her. Then he drew a revolver and shot his sister. Before he could be overpowered he shot his brother, Jacob, and brother-in-law Peter Smeal. Budenick is in jail.

Full of Tragic Meaning.

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and \$1.00. Trial bottle free.

In the line of sports Philadelphia is as fast as the lively city of Chicago.

And now some people are afraid that the "Clausmen" will cause a bad feeling. Nonsense.

May be Mr. Bryan may accept the position of King of Sweden. If he happens around that way, to fill vacancy.

President Roosevelt has sent a sewing machine to the Empress of China with the injunction, "As ye sew, so shall ye rip."

It is said that John D. Rockefeller wants a wife so that Pat O'Rowe won't recognize him and kidnap him, to hold him for a ransom.

The Bear is trying to borrow seventy-five millions, but he is having some trouble to find the fellow who has that amount in his jeans to let him have.

Whoever first called Philadelphia the city of brotherly love, didn't know about the cruel things it would do to Chicago's baseball players later in its history.

Dr. Parkhurst says he finds the conditions of New York much improved on his return. The moral sentiment no doubt is better since the abandonment of his saloon.

There should be a law passed to prevent any man from drawing a larger salary than the President, or we will have a hard time to get a man to accept the nomination.

With the world's markets open to the South, and cotton mills to turn out the goods, we would have no difficulty in competing with the Northern cotton goods manufacturers.

Not all of the people in the North have visited in the South, but those who have been here any length of time and seen for themselves are pleased with the people and the country.

Greene and Gaynor express great satisfaction at being released from bondage in Canada. They know they will have the best the land affords, if they only keep them in jail in the United States.

Lester Renfro, colored, must have thought the judge at Beaumont, Texas, was lavish with time when he gave him 99 years in the penitentiary. Renfro cut a young lady's throat with murderous intent.

The pacer Dan Patch went a mile at Lexington, Saturday, in 1:55 1/4, lowering his own record. This remarkable speed has turned attention to the harness horse again, and the automobile will never drive him from the field of sport.

We may expect tidal waves and other disturbances if Mr. Lawson is deprived of giving his testimony before the insurance investigation commission at New York. It is a privilege due to Boston, out of respect to her noted citizen, who is charged for such occasions.

PUBLIC IMPROVEMENTS.

The old saying that "Anything that is worth doing is worth doing well," applies particularly to the work done about the city, and it seems a waste of time to half do the street work, or, as it is known, make temporary repairs. Every year there is quite a sum of money paid out for these temporary repairs and the storms of rain come along each year and soon have undone what has been done and the streets are as bad as ever. The cost of doing the work properly may be greater on the start, but if the work is made permanent it will be cheaper in the end.

There should be more attention paid to making the sidewalks better, and under the new charter it is incumbent upon property owners to keep them in repair. The street committee should see that this work is properly done and in accordance with the requirements of the law. Good sidewalks add more to the convenience of a city than anything else, as they are used more than the roadways in the streets, and a system of substantial walks should be established on all streets.

The bridges across the Sweetwater branch are being repaired each year at a considerable outlay, whereas if a good substantial bridge was built where it is needed, it would last for ages. They should be constructed so as to afford space for the water to pass off without damage to their abutments, and made in a substantial manner, and then there would be no farther annoyance along this line.

What improvements that are done should be well done, and in the end there would be a saving of the city's funds.

TOO MUCH ALCOHOL.

The Dublin (Ga.) Times says that an order has been issued to dispensary constables of the State of South Carolina which under the ruling of the United States Internal Revenue Department puts a ban on certain patent medicines sold heretofore in drug stores. The order to the constables names the medicines which are to be sold on prescription only, and a further order has been issued in the shape of a notice to the druggists, giving them until December 1 to close out stocks of certain medicines now carried in stock.

The legislative investigating committee has brought out the statement that certain proprietary medicines are sold in dispensaries—and also in drug stores.

There need be no fear of the sale of the Florida orange being injured by crowding green fruit on the market. The green fruit may not pay the shipper a big revenue, but the Florida orange will not suffer any. The only trouble is, they cannot get enough Florida oranges in the North. Whenever they once get a foothold, they are sure to be in demand. The California fruit is not to be compared with the Florida fruit, and the people are becoming aware of that fact.

The strike fever seems to prevail all over the country, the result of too much prosperity. The job printers of the country are the ones interested, as it was understood the newspapers were not to be in the demand for the eight-hour day. It would be a hard matter for them to do the work and have the time laid down exactly, especially when a man has to go when anything happens.

"Monk" Gibson, the negro fiend of Texas, who has been captured, is liable to make a heap of trouble. He has been placed in jail and is guarded by two companies of State troops, and the citizens and troops are liable to come together over the matter.

NOT A GAMBLE.

One of the most frequent expressions heard from those who are not well informed on the subject is, "Farming in Florida is all a gamble, anyway," says The Lakeland News.

The meaning of this phrase is that farming in Florida is attended with larger risks and that the percentage of failures among people engaged in this avocation is greater in this State than elsewhere.

This conclusion is unfair and unwarranted by the facts. It is believed by the experience of thousands who, starting with practically no capital, have acquired a competence—in some instances affluence—as the result of their labor on Florida soil.

In Florida crops planted and cultivated with ordinary care and intelligence are as certain and as profitable as in any section of the United States. In this part of the State a greater diversity of products may be raised than in almost any part of the country, and something may be kept growing all the time. The South Florida farmer does not have to contend with the eggs-in-one basket conditions of the northern wheat, cotton or corn growers. If he fails with one crop, he has not lost the entire year, as is the case further north; he has still ample time to raise perhaps two more crops while his Northern brother is mourning adverse fate and waiting the recurrence of the proper season so that he may go to work again.

Wherever man sows, he must accept the risks consequent upon adverse elements. He must contend with extremes of cold and heat, with flood and drought, with blight and insect pest. These things are not confined to Florida—in fact, some of them, at least, are less hurtful in this State than elsewhere. If therefore, it is a "gamble" to farm in Florida, how much more truly may the statement be made of other sections where a whole year must be staked on a single crop, instead of three or four months, as is the case in this State.

We repeat that farming in Florida is as safe a pursuit, as sure of results, and more remunerative in returns than many of the most vaunted agricultural sections of the country, and the proof is furnished by a comparison of the condition of the Florida farmer with that of his brother in other States.

The Lakeland News says that since the announcement of his determination to remain at the head of the State Fair, T. J. L. Brown appears to be the most popular man in Florida, and he is getting bouquets flung at him from all sides.

The directors of the DeFuniak Fair are of opinion that the present quarantine restrictions will be removed by the time the fair is to take place and they will go ahead with the exhibition.

Sour Stomach

"I used Cascarets and feel like a new man. I have been a sufferer from sour stomach for the last two years. I have been taking medicine and other drugs, but could find no relief only for a short time. I will recommend Cascarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to eat."

LYNCHED BY HIS OWN RACE.

Negro Assailant Is Hanged for Crime
by Negroes.

Bainbridge, Ga., Oct. 10.—Tom Sea-
bright, a negro, who Sunday raped two
negro girls, committing the second as-
sault while the officers were chasing
him for the first offense, was taken
from the officers of the law, who had
him in their possession, and lynched
last night by a mob composed of mem-
bers of his own race.

Seabright was an ex-convict, who
was recently liberated from Greer's
camp, near Cyrene, in Decatur county,
and was captured by Officers Ivey and
Murkerson. The lynching occurred on
the plantation of James Ivey, about 8
miles west of Bainbridge.

After the negro had been hanged
to a tree his body was riddled with bul-
lets and what was left of it was left
hanging to the rope. The bloody car-
cass was cut down today by the cor-
oner.

The first assault greatly enraged ne-
groes who learned of it, and when the
second offense was committed their
fury knew no bounds.

When the two officers came in sight
of the place where the blacks had con-
gregated, the latter, heavily armed, ap-
proached, and stating that they meant
no disrespect to the officers, demand-
ed the prisoner. As there were about
50 of the lynchers in the party, the of-
ficers were powerless to prevent the
execution of vengeance without the
law's aid, although they pleaded with
the negroes to permit them to land Sea-
bright in jail, assuring them that the
would get full punishment in the
courts.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes,
June 14, 1902: "I want to tell you I
believe Ballard's Snow Liniment saved
my life. I was under the treatment of
two doctors, and they told me one of
my lungs was entirely gone, and the
other badly affected. I also had a lump
on my side. I don't think that I could
have lived over two months longer. I
was induced by a friend to try Ballard's
Snow Liniment. The first application
gave me great relief; two fifty-cent
bottles cured me sound and well. It is
a wonderful medicine and I recommend
it to suffering humanity." Sold by W.
M. Johnson.

Wealthy Man Suicides.

Charleston, S. C., Oct. 10.—Lee Loeb,
one of the wealthiest men in Charle-
ston, a retired merchant and owner of
over 200 pieces of real estate, dressed
for breakfast Sunday, and then telling
his wife that he would "be down in a
minute," stepped into a bath room and
sent a pistol bullet into his brain. Ner-
vous prostration had caused his re-
tirement from business some time ago,
and he had returned from a sanitarium
during the past week. He was the
largest owner of real estate in Charle-
ston, and was 58 years of age. He leaves
a widow. The jury of inquest gave
"melancholia" as the excuse of the
deed.

Eleven Bandits Are Shot.

Guadalupe, Mex., Oct. 10.—Eleven
of the bandits engaged in the hold-up
of Manuel Parades, shipping foreman
of the Buena Vista mines, and his two
assistants, 6 miles west of Hostotipa-
quillo, Jalisco, have been captured
and shot by the rurales. It has been
learned that fifteen men participated
in the hold-up. The search for the
other four bandits is still in progress.
The bandits killed Parades and one
assistant, wounded the other assistant
and secured \$5,000 which was being
taken out to the Buena Vista mines, to
pay the miners. The greater part of
the money was recovered.

Astonishing Incident.

It was, to all her friends, an aston-
ishing incident that Mrs. I. B. Hunt of
Lima Ridge, Wis., was cured of her
dreadful sickness. "Doctors," she
writes, "had given me up; friends
were ready to bid me the last farewell;
clouds of despair darkened my horizon,
and I was a wreck on the shores of des-
pondency, when I began to take Elec-
tric Bitters for my frightful stomach
and liver complaint. To the astonish-
ment of all, I was benefited at once
and am now completely and miracu-
lously restored to health. At all drug
stores; price 50c; guaranteed.

TRAGEDY AT MOTHER'S BIER.

Difficulty Between Members of Family
Over Dead Body of Parent.

Hastings, Neb., Oct. 10.—Over the
dead body of his mother, John Buden-
ick shot himself, his sister, his brother
and brother-in-law. The latter two
are in a dying condition. The shoot-
ing was the culmination of a family
quarrel that had existed for years.

Mrs. Budenick was staying at the
home of her daughter, Mrs. Peter Sme-
all, and because of the family trou-
ble her son, John, was not permitted
to see her during her illness.

When John heard of his mother's
death, last night, he entered the house
shortly after midnight and found the
entire family surrounding the corpse,
watching the undertaker prepare the
remains. Advancing to the corpse
John placed his hands on the lifeless
body and said: "This is my mother."
His sister, Frances, said something in
Polish, whereupon he struck her. Then
he drew a revolver and shot his sister.
Before he could be overpowered he
shot his brother, Jacob, and brother-in-
law Peter Smeall. Budenick is in jail.

HEAT AND LIGHT.

The Difference in the Penetrating Ability of Their Rays.

The rays of heat and light are quite independent of each other in their ability to penetrate different substances. For illustration, glass allows the sun's heat to pass through as readily as it does the rays of light, and that without heating the glass too. If the glass be coated with lampblack, however, the rays of light are arrested, but the heat passes through as before, not a single degree's difference in the latter phenomenon being noticeable. Then, again, both heat and light pass through water, provided it is clear. One of the oddities in this connection is this: Although the heat and light pass through water in its normal state, the addition of a little powdered alum, which readily dissolves without leaving the least turbidity, will arrest the rays of heat to such an extent as to almost immediately raise the temperature of the water to a perceptible degree, yet the light continues to pass through as before.

Ice, like glass, also transmits both heat and light. Dr. Sutherland in "Observations Upon the Icebergs of Baffin's Bay" says: "Several pieces of granite were found deeply imbedded in ice without any communications with outside air. These were all surrounded with what might be termed an atmosphere of water." The explanation of such an oddity is this: The heat passing through the ice had been absorbed by the stones until their temperature had been raised to a degree sufficient to melt the ice around them.

A WEST AFRICAN CITY.

The Capital of Liberia Was Named After President Monroe.

Monrovia was named after the celebrated president of the United States, Monroe, who is responsible for that doctrine which inhibits any European nation from further conquests in the new world. The capital of Liberia is divided into two parts, the low and shoreward sections being given over to large settlements of Kru boys and indigenous negroes, while the upper part of the town is inhabited by American Liberians and European consuls and traders. This civilized part of the town is composed of broad grass grown streets and substantial, well built, comely looking houses, churches, offices and public buildings.

This smart appearance of the houses is in somewhat striking contrast to the neglected condition of the roads. These have never been made and are simply the unlevelled rock of more or less flat surface. Consequently at the present time they are absolutely unsuitable to any vehicle, though I have seen an enterprising Liberian negotiate them with a bicycle. They are generally covered with a very short, close turf of thickly growing plants, which is kept in the condition of turf by the constant nibbling of the pretty little cattle that frequent the streets of Monrovia. A less agreeable feature are the pigs, which exist in great numbers and perform the office of scavengers.—Lie Harry Johnston.

A Whistler Retort.

James MacNeill Whistler, the artist, was appreciated among his friends as much for his trenchant wit and sarcastic sayings as for his genius. A young lady on one occasion, her first meeting with Whistler, was giving vent to her appreciation of the "artistic temperament" and was evidently of the opinion that she possessed that requisite herself.

"It is wonderful," she said in conclusion, "what a difference there is between people."

"Yes," replied Whistler, "there is a great deal of difference between matches, too, if you only look close enough, but they all make about the same blaze."

London Beggars in 1700.

In the year 1700 John Cary had this to say about London and its beggars: "He that walks the streets and observes the fatigues used by the beggars to make themselves seem objects of charity must conclude that they take more pains than an honest man does at his trade. Beggary is now become an art of mystery, to which children are brought up from their cradles. Anything that may move compassion is made a livelihood, a sure leg or arm, for want thereof, a pretended one."

Cheerfulness.

Cheerfulness is one of the great miracle workers of the world. It re-energizes the whole man, doubles and trebles his power and gives new meaning to his life. No man is a failure until he has lost his cheerfulness, his optimistic outlook. The man who carries a smiling face and keeps cheerful in the midst of discouragements, when things go wrong, when the way is dark and doubtful, is sure to win.—Success Magazine.

Gave Her Away.

"Did the father give the bride away?" "I should say he did. He got rattled, and what do you think he said as he handed her over to the bridegroom? 'It is more blessed to give than to receive.'—Cleveland Leader.

DO WE TALK TOO MUCH?

A Plan For Enough Silence To Enable Us To Think.

In the United States we are prone to talk too much. We do not sufficiently appreciate the value and beauty of silence.

During the after business hours, at the lunch and dinner table we talk on and on without ceasing, as though there was nothing worth thinking about. We invented the first talking machine, and no American is considered properly equipped unless he can talk at all times and upon all subjects.

Information must be imparted and ideas exchanged; it is essential to mental companionship and develops our faculties of expression. But there is no necessity for the endless and eternal talk in which so many of us indulge.

There is a great force and value in silence. It enables us to think. It forms and expresses character. The great men of the world were relatively silent men; they talked only when they had something to say, and the greatest of them said but very little.

We should study the beauty of silence and develop our thinking power rather than our talking power.—Chicago Journal.

Makes Homely Women Pretty.

No woman, no matter how regular her features may be, can be called pretty, if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears away blotched complexions by stimulating the liver and bowels. The Slit in the Coat Lapel.

A unique and beautiful custom among the orthodox Jews is directly responsible for the angular slit in the lapel of the modern coat. The Jew when death visits his household takes a knife and, cutting the lapel, murmurs in Yiddish, "O God, I accept thy judgment." This custom has come down from antiquity and is known as "kree" (rending the garment). The cutting of "kree" is associated with such solemn and religious obligations that many a stern Hebrew father, as a punishment for a son or daughter who marries out of the faith, will rend his garment as a token of the death of such a child. The act is emblematic of the profoundest grief, but also has its comforting influence, for it accepts with the resignation of the typical religious Jew the will of the Almighty.

New Cure for Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters of Duffield, Va., writes: "I had a cancer on my lip for years that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at all drug stores.

The Bridal Wreath.

The bridal wreath is usually formed of myrtle branches in Germany; it is made of orange blossoms in France as well as our own country; in Italy and the French cantons of Switzerland it is of white roses; in Spain the flowers of which it is composed are red roses and pink; in the islands of Greece vine leaves serve the purpose and in Bohemia rosemary is employed. In German Switzerland a crown of artificial flowers takes the place of the wreath.

The Sequel.

"When I saw her last she seemed to have fallen in love with him." "Oh, yes, but that was some time ago. She's suing him now for breach of promise." "Trying to get damages for the fall, eh?"

Cures Chills and Fever.

G. W. Wirt, Macgoshes, Texas, says his daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much of it. 50c. Sold by W. M. Johnson.

Tar and Feathers.

"The Greek was the first to apply tar and feathers to the body of an offender," said a doctor. "Then, as now, the punishment of the victim was considered one of the worst possible. In fact, tarring and feathering was considered a greater punishment than hanging. It was a living punishment of the most repulsive kind. Aerating of the blood to a certain extent through the skin takes place, and in the naked skin this is a very important part of the aerating process. In man the skin does about one-thirtieth part of the work, while the lungs do the rest. It has been demonstrated that frogs live but a few hours after having been given a coat of varnish. A man that is so unfortunate as to receive a coat of tar and feathers so soon as freed from his persecutors seeks to free himself from the recently applied tar. A man with good kidneys could endure longer such an application than one suffering from an attack of any disease affecting the kidneys. Death might follow his suffering. The skin is a great absorbent agent."

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures a gripe cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

Democracy on Warships.

Visitors to the big warships in the navy yard are astonished at the way the men address their officers with the title of "Mr." Everybody below the grade of captain on the ship is addressed with a simple "Mr." This is to save time, as a commander, lieutenant commander, lieutenant and midshipman require too much time to enunciate. A national guard officer of rank below that of major visiting the yard the other day was surprised to hear a lieutenant commander referred to as "Mr." The very thought of such a thing happening to him in the army made him almost shiver. "Ah," said he, "I see why it is. The officers are on board day after day, while we guard officers are in the army only now and then. Consequently, we can stand a little waste of time in hearing our titles uttered."—Brooklyn Eagle.

Mothers

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

RAPID WRITERS.

Authors Who Did a Great Deal of Work in Little Time.

The rapidity of the ancient writers is seen from the great number of works prepared by them. Livy, for instance, wrote 142 books. Among the Romans, Cicero often wrote three or four important works in a single year. Of later writers, Dr. Johnson, Scott and Byron were all rapid writers. Byron, it is related, wrote "The Corsair" in ten days, while Scott wrote a work for which he was paid £1,000 in ten days. "Rob and His Friends," by Dr. John Brown, was written, it is said, at a single sitting.

The story is told that Dean Shipley once said to Heber: "Suppose you write a hymn for the service tomorrow morning," and by the next morning the hymn known all around the world, "From Greenland's Icy Mountains," was written, printed and used in that day's missionary service. Chalmers was once asked how long it took to prepare a sermon. He replied: "That depends on how long you want it. If your sermon is to be half an hour long, it will take you three days; if it is to be three-quarters of an hour, it will take two or perhaps one, but if you are going to preach an hour, then there is not much occasion to think a great deal about it. It may be done in an hour."

Samuel Johnson would write at a single sitting the manuscript for forty-eight printed octavo pages. In one week he wrote "Rasselas" to pay for his mother's funeral, sent it off to the publishers without reading it over and was paid £100 for it.

SARCASTIC DEAN SWIFT.

Rules and Directions For Servants That He Wrote.

There was a servant problem when Dean Swift was alive just as there is today, and he died in 1745. In his "Rules and Directions For Servants" he wrote: "When you have broken all your earthen vessels below stairs, which is usually done in a week, the copper pot will do as well. It can boil milk, beat porridge, hold small beer. Apply it indifferently to all these uses, but never wash or scour it." And again: "If you want paper to singe a fowl, tear the first book you see about the house. Wipe your shoes, for want of a clout, on the bottom of a curtain or a damask napkin." "In roasting and boiling," he goes on, "use none but the large coals and save the small ones for the fire above stairs." Another touch that might have been written today is the following: "When a butler cleans the plate leave the whitening plainly to be seen in all the chinks, for fear your lady should not believe you had cleaned it." Once more: "There are several ways of putting out a candle. You may run the candle end against the wainscot, which puts the snuff out immediately; you may lay it on the ground and tread the snuff out with your foot; you may hold it upside down until it is choked in its own grease or cram it into the socket of the candlestick; you may whirl it round in your hand till it goes out."

Red Sea Pearls.

Pearl fisheries, of which the world hears little, but which constitute a considerable industry, are carried on at the Lohia islands, in the lower end of the Red sea. Very few of these pearls find their way to European or American markets, because the local demand almost absorbs the output. Pearls are the most popular of all gems among the inhabitants of India and Arabia and it is seldom that a native woman of any social position is seen without pearl ornaments of some kind, either finger rings, earrings or rings for the nose, and even the feet.

Went For a Soldier.

At one of the London police courts a young hooligan was being tried for an assault on an elderly man. The magistrate, noticing an old customer in the hooligan, thought he would give him a little fatherly advice, and remarked: "Young man, I'm surprised at a big, strong, healthy looking fellow like you always getting into trouble. Why, you seem to be always wanting to fight. Why don't you go for a soldier? Imagine the smile which illuminated the magistrate's face when the youth replied, 'I did once, your honor, and he nearly killed me.'"

His Practical View.

A certain sweet faced grandmother is sometimes startled by the up-to-date-ness of her grandchildren. The other day she was telling the youngest of them, a boy five years old, the story of Lot. She showed him the pictures of the wicked cities of the plains enveloped in the fire from heaven. The little chap gazed at the pictured confusion and then asked: "Were they insured?"—New York Press.

After a Week.

Mrs. Wagner (reading)—A well known physician says that one should never go into the water after a heavy meal. Wagner—That's right. It's better to go into a first class restaurant after it if the physician is to have the price.

MASON AND DIXON'S LINE.

Commonly Known as the Line Between the North and South.

Mason and Dixon's line between Pennsylvania and Maryland has been surveyed three times. The first survey was made by Charles Mason and Jeremiah Dixon between 1763 and 1767 at the instance of the Lords Baltimore, proprietors of Maryland, and the Penn family, proprietors of Pennsylvania. The line was 250 miles long. At the end of every fifth mile a stone was planted bearing the arms of the Penn family on one side and on the other the arms of Lord Baltimore. The intermediate milestones were marked simply with P and M. The first revision of the survey was made in 1840 and found, as did the last revision, that the original survey was substantially correct. Mason and Dixon's line, commonly known as the line between the north and the south, runs on parallel 39° 43' 26.3" and should be distinguished from the line of the Missouri compromise on parallel 36° 30'. Mason and Dixon's line never had anything to do originally with the question of slave and free states, but achieved an accidental association at the time of the Missouri compromise in 1820, when John Randolph in congress referred to it as separating freedom from slavery. After that it was commonly referred to in all controversies on the slave question.—Youth's Companion.

HANDKERCHIEFS.

They Are Often a Source of Grave Danger to Washerwomen.

Statistics have shown over and over again that washerwomen are much more likely to contract tuberculosis and actually suffer from the disease in much larger proportion than other working women of the same grade of life. This is due to the fact that the expectoration of the tuberculous patients clinging to their various articles of clothing is not rendered nonvirulent by antiseptics or by boiling before they come into the hands of the washerwoman. It is particularly handkerchiefs in this respect, and the enforcement of sanitary regulations with regard to expectoration is sure to add to this danger. It would be well if the Chinese custom of using a paper handkerchief (which the Chinamen of the better classes would disdain to carry with him once it has been soiled, but which he hands over to his servant to be disposed of by burning) could become the rule in this country. Until it does, however, physicians should call the attention, especially of those suffering from tuberculosis, to the necessity for having their handkerchiefs soaked for some time in a suitable antiseptic solution before allowing them to be sent out to become a possible danger for the overworked and underfed poor.—American Medicine.

CHURCH BELLS.

The Best Are Made From the Metal of Old Cannon.

"No silver is used in church bells," said the bell founder. "People claim there is, but I have assayed many an old bell that came here to be broken up and never an ounce of silver did I find in one of them."

"For the best bells we use old cannon. They give us the purest amalgam we can get. The tenor bell I am making now is composed of twelve tons of old cannon from Spain."

"These two molds, the core and the cope, are what give the bell its sweetness. It is in their cut that the secret of bell founding lies. The core is the inner mold. It has the exact shape of the bell's inside."

"We fit the cope over the core and into the space between the molten metal is run. When the metal has hardened and cooled the bell is finished, save for its clapper."

"To tune bells it is necessary to chip little pieces out of them. Our bell tuner is a good musician. He has composed a number of hymns."—Philadelphia Bulletin.

A Frightened Rabbit.

"I was walking across a field with my dog at my side when a young rabbit emerged from a wood close by," says a writer. "Suddenly it fell to the ground and was to all intents dead. The dog sniffed it, and I watched it for about ten minutes, thinking it absolutely dead. I walked away about fifty yards, when I looked back and saw the rabbit rise and run rapidly into the wood whence it came. It is evident that it saw the dog and dropped down out of fright."

The Statue to the Pilgrims.

On Plymouth Hill stands the imposing statue to the pilgrims. Its base is granite and supports a seated figure at each of the four corners with eyes searching the surrounding country, while a woman's figure crowns the top. On the pedestal is inscribed the name of every man, woman and child that came over in the Mayflower.—St. Nicholas.

Great minds, like heaven, are pleased in doing good, though the ungrateful subjects of their favors are barren in return.—Byron.

Quite a large number of our people enjoyed a picnic at the Sink yesterday, many of them going by the Coast Line. A pleasant day and a delightful time was the outcome.

We are sorry to note that our friend, Editor Setzer of The High Springs Herald, is still suffering from a sprained ankle, received about two weeks ago while playing baseball.

Mrs. M. B. Saunders returned last night from Live Oak, where she has been on account of the illness of her nephew, Frederick William Sutherland, and the death of whom occurred yesterday.

The Ladies' Aid Society of the Advent Christian Church will give a social at the home of Mr. and Mrs. O. B. Bailey, Thursday night, October 11th. Oysters, coffee and cream will be served. All are most cordially invited.

An alarm of fire was turned in from Box 52 at 11:25 p. m. yesterday, which proved to be a small blaze in the rear of a negro shanty near the Seaboard depot. The department responded, but the fire was extinguished in a little less than two minutes.

TO REMOVE FRECKLES AND PIMPLES IN 10 DAYS, USE NADINOLA THE COMPLEXION BEAUTIFIER.

THE NADINOLA GIRL (Formerly Advertiser and sold in SATINOLA.)

No change in formula or package. The name only has been changed to avoid confusion, as we cannot afford to have so valuable preparation confused with any other.

NADINOLA is guaranteed, and money will be refunded in every case where it fails to remove freckles, pimples, liver spots, color blemishes, blackheads, discoloring eruptions, etc. The worst cases in 10 days. Leaves the skin clear, soft, healthy, and restores the beauty of youth.

Joseph L. Shaw, one of the sturdy farmers of Alachua, was in the city yesterday.

J. A. Manley of Campville was a visitor at the county seat yesterday, on special business.

When you need extracts get the "best ever made"—Blue Ribbon lemon and vanilla. At your grocers'.

M. O. Morrison of High Springs and C. O. Strickland of Hague were among the visitors to the county capital yesterday.

Engineer Dave Haddock, one of the Coast Line's most popular lever pollers, was in the city yesterday for a short time.

Lee Graham, assistant cashier in the First National Bank, left yesterday for a short trip to Washington and points in Virginia and West Virginia.

Prof. C. Franklin, the oculist and eyeglass specialist, who is now making a tour of the county, will return to Gainesville next Sunday and will be at the Brown House until Monday afternoon at 4 o'clock. Those in need of services in his line should not fail to see him.

Friends in this city will be pained to learn of the death of Frederick William, the infant son of Dr. and Mrs. William Sutherland, which occurred at Live Oak yesterday. The remains will come through this city today, en route to Mississippi, where the funeral will be held this afternoon. Sympathy is extended to the bereaved parents.

The members of the Board of County Commissioners, consisting of F. F. Pauling of Lakeview, J. G. Dampier of Hague, and J. L. Townsend of Rex, were in the city yesterday to attend a special meeting of that body, for the purpose of inspecting the books of the County Assessor, but as they were not ready, another meeting will be called.

READ THIS.

MOBILE, ALA., Dec. 24, 1909.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking "The Texas Wonder." Hall's Great Discovery, and, being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder."

Yours truly,

W. B. OLARK,

M. & O. R. E. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, removes eruptions, weak and lame back, rheumatism and all irregularities of the kidneys and bladder in both men and women, regularizes bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer, P. O. Box 418, St. Louis, Mo. Send for testimonials. Sold by all druggists.

W. B. Dorney expects to make his departure today for New York on a business trip. He will be absent about two weeks.

Notice to the Public.—We will sell at Lenoir, Va., Monday forenoon at 10 o'clock sharp, on October the 16th, forty-eight head of fine mules and two horses at public auction to the highest bidder. Lenoir is centrally located on the Seaboard Railway, between Bronson and Otter Creek, in Levy county. Fowler & Son.

The Metropolis of the 10th Inst. has information that John O. LaFontaine, city editor of The Times-Union, has returned and gone to Atlanta for a few days. Mr. LaFontaine was for years connected with The Sun, and has many friends in this city and section. He is one of the best writers in the State, and it is hoped he will decide to remain in Florida.

Among those registered in the city Monday were N. J. and John Q. Tilghman of Palatka. These gentlemen are extensive manufacturers of eyeglasses, having been engaged in the business in Palatka for years. They recently purchased a mill at Cedar Key and were en route to that point to arrange for operating same, which has been idle for some time. There are no better business men in the State than the Tilghmans.

The big Industrial Edition of The Sun, of which 30,000 will be printed and distributed to housewives and others, promises to be a big success, as our merchants and manufacturers and professional men, realizing its good, are coming loyally to the support of the venture with advertising. The editor reports gratifying success, and believes that it will prove the most successful venture of the kind ever introduced here. The main purpose of the publisher is to distribute this number at the State Fair, which will be visited by thousands of people looking for homes in Florida. To this class especially will the Industrial Edition appeal.

High Springs. Cotton Sales Are Live—Other Business in Storming.

High Springs, Oct. 8.—The Atlantic Coast Line Railway Company is putting in a great many substantial improvements in the shops here, such as new and heavier capacity boilers, and heavier rails in the seventeen miles of side-tracks in the yards. Every indication points that the company is getting everything in readiness for the great rush on the West Coast this winter. The transferred freight of this place is growing immensely.

Rev. G. E. Thompson, the local Presbyterian divine, will begin a series of meetings at his church here Sunday. A great religious awakening of that faith and order is anticipated.

Mrs. Apple, an heir to the Levy estate in this place, is in the city from her home in Milledgeville, Ga. Her business here is to look up the estate and pay some out of insolvency. She is a lady of mellowness, and it affords a pleasure to transact business with her. She is also quite shrewd under circumstances where finances are involved.

Four 400-power electric lights have just been added to the interior of the Methodist church, which does not yet compare favorably with the brilliancy of its pastor, Rev. M. H. Outland, but many thanks are due Sam Phifer, the projector of the new lights.

V. V. Lanier, proprietor of the High Springs Telephone Exchange, was a visitor to this city Tuesday. Mr. Lanier's home is in Madison, but "central" was a little out of "whack" and needed attention, hence his visit. It is rumored that his telephone line from Electric, Wade and Newberry will "tap" in this system shortly, which will prove of great commercial value to High Springs.

When it comes to buying cotton and paying high prices for it, High Springs is in the lead.

All of our hotels are doing a fine business.

Mrs. Geo. G. Cass and Mrs. S. B. Hollis have an obstinate spell of fever.

HAD A BIG MEETING.

High Springs Lodge, Knights of Pythias, Honored Officer.

On occasion of the official visit of District Deputy Grand Chancellor W. E. Dow to High Springs Lodge No. 51, Knights of Pythias, a special program was arranged Monday evening. The meeting was largely attended and the visiting officer expressed himself as being well pleased with the lodge and its condition, as well as the efficient manner in which the work was conducted.

At this meeting many interesting talks were made "for the good of the order," during which Mr. Dow delivered an impressive address.

THE YELLOW FEVER.

Pensacola Still Having a Struggle. New Orleans Gaining.

Pensacola, Oct. 10.—The situation in this city is anything but favorable. Twenty-two new cases were reported yesterday with four deaths. The cases have spread to the most fashionable part of the city.

At New Orleans. New Orleans, Oct. 10.—The prospects are very favorable, and there were only 17 cases yesterday and one death.

F. & A. M. There will be a regular communication of Gainesville Lodge No. 41, F. & A. M., tonight in Masonic Hall at 7:30. As this will be the first meeting since we called off for the summer a great deal of important business must be attended to. All members are expected to be present and visiting brothers will be made welcome. By order of W. B. Hanson, W. M. R. McCALLAN, Sec.

Cures Winter Cough. J. E. Gower, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horchard Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to go on and well." Ho, L. and G. Sold by W. M. Johnson.

Ir. J. Carter of Seaberry, one of the most successful and energetic business men in the West End, was a visitor to Gainesville yesterday. The Sun acknowledges a pleasant call from the gentleman.
